IDENTIFIERS	*Newspaper in Education Program

ABSTRACT

This bibliography lists 124 publications designed to answer the question of how to use the newspaper in the school curriculum. The bibliography is one facet of a continuing effort to assist hundreds of newspapers and school systems sponsoring Newspaper in Education programs. Most of the materials in the bibliography are published by newspapers, in close collaboration with curriculum developers in local school systems; many of the lesson plans and activities have been successfully teacher-tested in the classroom. The entries are divided into the following sections: General--newspaper activities, funnies or comics, holidays; Reading/Language Arts/English; Social Studies/Citizenship Education; Math/Science; Career Education; Foreign Language; Business/Consumer/Home Economics; Special Education; Newspapers in the Home; and Newspaper Unit. An index of publications and two appendixes listing newspaper youth pages and NIE publications are included. (MS)

Merrill F. Hartshorn
(1909-1985)

This sixth edition of *Bibliography: NIE publications* is dedicated to the memory of Merrill F. Hartshorn.

With Merrill's untimely death in August 1985, the Newspaper in Education program lost a pioneer, a friend of long standing and a staunch and loyal supporter.

From the very inception of NIE in 1952, Merrill committed his personal support to the program, and gained an early endorsement for it by the National Council for the Social Studies. Merrill's support and involvement ended only with his death.

In 1956 a Press-Education Conference attended by representatives from leading newspaper and education associations met in Chicago to determine how newspapers might be better used in schools. It was Merrill who was instrumental in enlisting support for this conference of the most prestigious professional education organizations. The group authorized a study of current uses of newspapers in classroom work; Merrill was chosen to direct this research.

On the basis of the study's results, national workshops were established—to develop a cadre of master teachers who would stimulate classroom use of newspapers. Merrill chaired the group that prepared a prospectus for these seminars and titled it "The Newspaper in the Classrooms of a Free Society." NIC—Newspapers in the Classrooms—derived from this title and was subsequently changed to NIE—Newspaper in Education—to reflect the program's expanded mission.

Merrill coordinated newspaper-related curriculum workshops from the first ones in 1958 until, having met their objectives, they were discontinued in 1971.

He became increasingly convinced that NIE needed to reach pre-service as well as in-service teachers. In 1971 he organized and implemented three Teacher Trainer Conferences in New York, Chicago and Los Angeles. These were followed in 1975 by three meetings designed especially for college personnel engaged in teacher education. After his retirement in 1974 from the National Council for the Social Studies, he edited *Teaching With Newspapers*, a newsletter for methods instructors, and supervised the preparation of five previous editions of this bibliography.

Merrill's commitment, enthusiasm and concern for NIE continued unabated throughout his career. He was actively and continuously involved in committee meetings, conferences and editing duties. He made himself readily available to NIE staff for consultation, guidance and sound counsel.

Merrill was known and respected internationally as a social studies educator. He worked in varying capacities in Germany, with UNESCO in Paris, and as consultant on education in Japan and Indonesia. His leadership of the National Council for the Social Studies (1943-1974) brought it from a small and struggling professional organization to a strong and potent voice for the social studies.

As a professional, Merrill was a man of extraordinary integrity, intelligence and sound judgment. He had an uncanny ability to cut through to the essence of the problems, rejecting the peripheral and the irrelevant. His proposals for solutions were rational and pragmatic. His impact on social studies education in general, and on the Newspaper in Education program in particular, is enduring.

As a friend and human being he was loyal, warm and caring. We miss him very much.

—John H. Haefner

John Haefner, now retired, was professor of social studies education at the University of Iowa. He served for many years with Merrill Hartshorn as educational consultant to NIE.

Bibliography: Newspaper in Education Publications

Newspapers and learning go together. This theory gains acceptance steadily . . . but what about the practice? While teachers recognize the newspaper as an excellent tool for bringing the real world into the classroom, they are understandably hesitant about channeling the vitality of changing newspaper content into the confines of a curriculum oriented to skills and concepts.

This bibliography lists 124 publications that can help resolve that hesitancy and answer nearly any question about how to use the newspaper in the school curriculum. The bibliography is one facet of a continuing effort on the part of the American Newspaper Publishers Association Foundation to assist hundreds of newspapers and school systems sponsoring Newspaper in Education programs.

This is the sixth edition of *Bibliography: Newspaper in Education Publications.* The publications listed were selected by a panel of reviewers in August 1985.

The reviewers agreed on the following criteria in measuring the appropriateness of material submitted for possible listing in the bibliography:

- Is the material well organized?
- Is it visually attractive?
- Is it unique in its approach?
- Will it help readers (students) develop positive atitudes toward the newspaper?
- Is it non-discriminatory?
- Are the activities educationally sound? clearly and completely described? interesting? easily used by teachers?

Most of the materials in this bibliography are published by newspapers, in close collaboration with curriculum developers in local school systems. Many of the lesson plans and activities were written only after teachers tested them in their classrooms and found them successful.

A number of publications otherwise suitable for listing were omitted because they were too closely tied to a certain newspaper or locale, or because they duplicated a large number of offerings in a designated category.

Subject categories necessarily overlap. If one area of the curriculum seems not to be sufficiently covered within one category, it may appear in others—especially under the "general" listings.

Many new materials that deal specifically with practical life skills, "survival skills," and competency objectives are included in this bibliography. For the most part, these publications are listed in the "Business/Consumer/Home Economics" section. Other publications may also stress life skills; look in the annotations for descriptions of skills covered.

Materials relating to citizenship education, an increasingly important part of the curriculum, appear under all the listings—especially within the "Social Studies and Citizenship Education" category. Newspapers were founded on the premise that if our democratic society was to work, each citizen must be able and willing to participate in the affairs of government. Consequently, NIE programs and publications have always emphasized the development of in-

formed citizens—through newspaper reading—who have both the knowledge and the desire to act.

Publications in the "Newspaper in the Home" category contain suggestions as to how parents can work with their children to use newspapers as a basis for many learning activities and skill development. Publications in the "Newspaper Unit" deal with the way newspapers are put together, media issues, how to develop student newspapers, photojournalism, etc.

Unless "for student use" is noted, the materials are intended for teachers to use with their students.

Single copy prices are given for each publication. Many of the publications listed here are available in bulk at reduced prices; for details, contact the source. To ensure prompt receipt of these materials, all orders should be prepaid.

ANPA Foundation welcomes submission of any new Newspaper in Education publications for consideration for future editions of this bibliography.

Appendix B—ANPA Foundation NIE Publications

About the NIE program

The Newspaper in Education program is a cooperative effort of hundreds of newspapers and thousands of U.S. and Canadian schools in which newspapers are used as a tool of instruction. The American Newspaper Publishers Association Foundation acts as a service agency for these local NIE programs. ANPA Foundation develops curriculum guides, sponsors conferences and special projects and advises newspapers and school systems on effective methods for teaching with newspapers.

The following NIE publications are available from ANPA Foundation.

For newspapers only

NIE Development Plan

From A to Z in starting an NIE program. Includes information for circulation, promotion, advertising and editorial departments, plus how to make contact with school systems. ..... **Price: no charge**

NIE Marketing: In-paper Ads

How to spread the word about your NIE program, including a short course on preparing ads, with more than 100 examples. ..... **Price: $2**

Publishers: Try NIE

This 8-page brochure suggests to publishers that NIE programs offer substantial benefits—by developing future readers, establishing solid community relations and contributing to the educational programs of schools in their market areas. Also summarizes recent research findings related to NIE. Developed with the assistance of Gerald Stone, journalism department, Memphis State University..... **Price: no charge**

Workshop Workbook

A selection of teacher workshop lesson plans and handouts that have been used successfully by NIE coordinators throughout the country. Updated periodically..... **Price: $4**

Why NIE?

Explains relevance and practicality of using newspapers as teaching tools for almost every discipline and grade level, including adult education. Outlines NIE's positive impact for newspapers, teachers and students. ..... **Price: no charge**

Camera-ready for newspapers only

The following materials are provided camera-ready and may be reproduced locally. Space is provided for your newspaper's logo.

Between the Lines

A set of 36 quarter-page ads designed to run each week of the school year as a promotion for educational uses of newspapers. Each ad features three or four activities that kids can complete on their own, with parents or teachers. Written by Julie C. Morse. ..... **Price: $20**

Citizens on Assignment

A 74-page workbook designed to motivate students and get them involved in their community. Consists of three major sections; easily integrated into language arts and most social studies curricula. Developed by Julie C. Morse, former curriculum coordinator for the Chicago Sun-Times, and Carolyn Pereira, national director, Constitutional Rights Foundation. ..... **Price: $10**

Elementary Activity Cards

Covers most subject areas for students in grades 4-8: language arts, social studies, science, math and careers. Each card has self-contained activities for students to complete by using newspapers. ..... **Price: $25**

First Amendment Unit

This package gives details on several basic First Amendment cases. Designed to be completed by students, rather than teachers. Senior high school level. ..... **Price: $25**

FUN Supplement

Families Using Newspapers (FUN) supplement, an 8-page tabloid designed for camera-ready reproduction, provides challenges to be met by parent and student working as a team. Written by Julie C. Morse. ..... **Price: $15**

The Newspaper: Your Key to Better Living

Designed for use in adult education classes, this 49-page curriculum covers such topics as newspaper sections, coupons, advertisements, classified ads, news stories and editorials. Materials are written to help adult low-level readers develop reading and "life" skills by using newspapers. ..... **Price: $20**

Our Living Community

Set of 150 learning activities for students in grades 7-12. Activities based on social, political and economic issues, allowing students to study local community through newspaper. Included are instructions for teachers and students, and forms whereby student's progress can be recorded. Newspapers can reproduce as a manual or as set of activity cards for school use. Written by John Guenther, professor, school of education, University of Kansas. ..... **Price: $25**

Telecommunications: A Time of Megachange

This 8-page supplement guides high school students through the many different technologies merging to form the field of telecommunications: telephone, cable television, satellites and computers—plus the exciting career opportunities created by the expanding communications field. ..... **Price: $20**

Using the Newspaper in Secondary Mathematics

This 13-page curriculum emphasizes problem solving as a fundamental skill and key ingredient in successful mathematics education. Written by John Guenther, University of Kansas and Mary Kay Corbitt, Louisiana State University..... **Price: $15**

Using the Newspaper in Secondary Science

This is a 27-page curriculum guide that follows guidelines for science education set forth by the National Science Foundation. Activities in the package help students use science to improve their own lives; deal with science-related social issues; acquire academic knowledge related to their schoolwork; and learn about a wide variety of science and technology related careers. Written by John Guenther and William LaShier, University of Kansas. ..... **Price: $20**

Using the Newspaper in Secondary Social Studies

This curriculum guide is aimed at students in grades 7-12 and provides secondary social studies teachers with a comprehensive set of options that use the newspaper as a learning resource. Includes five sections: history, government, economics, geography; the last section contains a variety of teachers worksheets. By John Guenther, professor, school of education, University of Kansas. ..... **Price: $20**

Using the Newspaper in Upper Elementary and Middle Grades

This is a 94-page curriculum guide that covers most elementary and middle school subjects, including language arts, science, math, social studies and the newspaper itself. Within each section are 10 lessons, several student worksheets and 20 additional activities. Written by Julie C. Morse. ..... **Price: $35**

Using the Newspaper to Teach Secondary Language Arts

A 57-page curriculum detailing activities secondary language arts teachers can use with their students. Sections include: language arts foundations, writing applications, literature applications and speech applications. Contains more than 20 activity sheets. By John Guenther and John Bushman, University of Kansas. ..... **Price: $20**

Publications suitable for teachers and/or newspapers

The Anatomy of a Newspaper

A 44-page booklet that describes parts of the newspaper. Crisp narrative and bright illustrations help students in junior and senior high learn about news, advertisements, information and entertainment offered through the newspaper. Gives student the who, what, where, when, why and how about the newspaper. ..... **Price: 1-99 copies, $1 each; 100 or more copies, $.75 each.**

Bibliography: NIE Publications*

Annotates more than 100 NIE curriculum publications for teachers and students. Teacher manuals, student booklets and card sets have been carefully selected by a panel of newspaper and educational professionals; listings categorized by subject, and information on format, content, grade level, price and distribution source is provided. An indispensable resource for teachers interested in the full spectrum of NIE materials available. ..... **Price: $1.50; 50 or more copies, $1 each**

Educators: Try NIE

This 8-page black-and-white brochure promotes the Newspaper in Education program to educators by providing rationales for using newspapers in classrooms and by summarizing recent research findings related to NIE. Also available in camera-ready form. Written by Edward DeRoche, dean, school of education, University of San Diego and John Guenther, professor, school of education, University of Kansas. ..... **Price: no charge**
Camera-ready, $5

First Amendment Poster

Full-color 20 x 25½-inch representation of each American's first freedom. Ideal for newsrooms, classrooms or as a promotional item.

Price: 1-24 copies, $5 each; 25-99 copies, $3 each; 100 or more copies, $2 each.

Minimum Competencies Assessment in Reading—An Overview

Collects available minimum competency material from states that have such tests; outlines their differences and similarities; determines how they relate to newspaper content; and provides sample activities showing how newspapers can be used to support minimum competency requirements. Written by Edward F. DeRoche, dean, school of education, University of San Diego and Judith Babbitt Gould, reading/language/math specialist, Oceanside (Calif.) Unified Public Schools ..... **Price: $2**

The Newspaper as an Effective Teaching Tool*

Brief, informal introduction to the NIE concept. Describes principal uses of the newspaper in school curriculum. Ten sample activities demonstrate how the newspaper can be used as an instructional tool in various subject areas. ..... **Price: $1.50; $1 each (51 or more copies)**

NIE Beginner's Kit

A collection of articles and papers introducing teachers/newspapers to potential uses of newspapers at various grade levels. Kit selections vary as new material is identified and printed. When ordering, indicate whether you want a teacher's or publisher's kit. ..... **Price: publishers, no charge; teachers, $2**

Newspapers . . . Your Future?

Concise pamphlet designed to give students a quick look at the many jobs available at newspapers. A valuable give-away on career days.

Price: single copy free; $.15 each (multiple copies)

Using Newspapers to Teach Reading Skills

Provides a systematic answer to the questions: "What specific reading skills can be taught with newspapers and at what grade levels?" This 50-page booklet is especially valuable for educators who plan the reading curriculum. ..... **Price: $2**

---

*Denotes material also included in NIE Beginner's Kit.

To order any of ANPA Foundation's publications, write: Publications Distributor, ANPA Foundation, The Newspaper Center, Box 17407 Dulles Airport, Washington, D.C. 20041, or call 703/648-1048. As with the rest of the materials in this bibliography, prepayment will expedite your order.
